CAREER OBJECTIVE

Aspiring Software Engineer with a strong interest in Full Stack and Web Development. Skilled in both front-end and back-end technologies, with a focus on building responsive and scalable web applications. Eager to contribute to innovative development teams and grow in a dynamic tech environment.

EDUCATION

Prof. Dhanapalan College of Science and Management <i>B.Sc. Computer Science – University of Madras</i> Percentage: 87%	2022–2025 <i>Chennai, Tamil Nadu</i>
University of Madras, Guindy Campus <i>M.Sc. Computer Science</i>	Pursuing <i>Chennai, Tamil Nadu</i>

TECHNICAL SKILLS

- **Frontend** – HTML, CSS, JavaScript
- **Backend** – Python, PHP, Java
- **Databases** – MySQL
- **Core Skills** – Data Structures, OOPs, Problem Solving
- **AI & ML** – Machine Learning Basics, Responsible AI Principles
- **Frameworks** – Django
- **Tools** – VS Code, Git, MS Office
- **Cloud & AI Tools** – Vertex AI, BigQuery, Looker Studio, Agent Development Kit (ADK)

SOFT SKILLS

- **Leadership** – Led a team of 5 members in developing a real-time News App using React and Node.js.
- **Team Collaboration** – Worked effectively in group discussions and peer coding sessions.
- **Problem Solving** – Resolved technical challenges through logical analysis and efficient solutions.

PROJECTS

<u>Google Home API Developer Challenge - Smart Home Voice Control</u> HTML, CSS, JavaScript	2025
• Built a smart home simulation system integrating voice commands to control IoT devices, improving automation response efficiency.	
<u>Digital Study Material Website</u> HTML, CSS, JavaScript, PHP, MySQL	2025
• Designed and developed a web-based platform to provide digital learning resources for Computer Science students, including PDF materials and interactive quizzes. Focused on user-friendly navigation and responsive design using HTML, CSS, JavaScript, PHP, and SQL.	
<u>Personal Resume</u> HTML, CSS	2025
• Designed and developed a responsive personal resume using front-end technologies with an attractive layout. Included key sections like Education, Technical Skills, Projects, and Certifications with clean, print-friendly formatting. Focused on typography and alignment suitable for professional use and ATS (Applicant Tracking System) compatibility.	
<u>Besant Technologies</u> Python with NetBeans IDE	2024
• Completed practical hands-on projects during a Python training program: • <u>Rock, Paper, Scissors</u> – CLI-based game logic • <u>Guess the Word</u> – Word puzzle game using loops	

INDUSTRIAL VISIT

<u>Codebind Technologies - AI/ML</u>	2025
Participated in an industrial visit to Codebind Technology in Coimbatore, where I observed real-time applications of Artificial Intelligence and Machine Learning.	
<u>Codebind Technologies - Web Development</u>	2024
Successfully participated in an industrial visit to Codebind Technology in T. Nagar, where I gained insights into web development practices.	

CERTIFICATIONS

Google - Crash Course on Python (Aug 2025)
Completed foundational training in Python programming covering problem-solving, data structures, and OOP concepts through Coursera.

Google Cloud - Introduction to Responsible AI (May 2025)
Completed professional Training on Ethical AI principles bias Mitigation, and best practices, Through SkillUp By Simplilearn.

Microsoft – Get Started with Web Development using Visual Studio Code (May 2025)
Completed foundational training on web development setup, tools, and best practices using Visual Studio Code.

Techno Exhibit 2024
Presented a project on Full Stack Development at the Department of Computer Science, Prof.Dhanapalan College of Science And Management, Chennai.

Besant Technologies - Python
Python Full-Stack Besant Technologies Completed a training program focusing on Python programming, Django framework, and web development.
